

Healing Democracy

**BUILDING
COMMUNITIES
OF CARE
BEFORE,
DURING &
AFTER THE
2026
ELECTION**

As the 2026 election draws near, many of us are asking ourselves how we can help ourselves and our communities stay connected, grounded, and safe leading up to November 3.

MNIPL and the Movement Chaplains Network are partnering to launch Healing Democracy, a movement to organize people and communities towards groundedness in the time before, during, and after the election.

This work needs people like you, people who are connected to their communities and care about preserving our democracy. **Will you join us in this meaningful work to support our communities?**

Poll Chaplaincy

For five years, trained Poll Chaplains have brought calm, nonpartisan care to election spaces in Minnesota. **Poll Chaplains accompany people in and around the voting experience.** They offer a calm, compassionate presence, help lower tension, connect people with trusted resources when needed, and make space for the hope, pride, and joy that are also part of participating in democracy.

Digital Democracy

Digital Chaplains bring grounded, caring presence into the online spaces and relationships they already inhabit. They listen, offer support, share trustworthy resources, and help people navigate fear, uncertainty, and difficult moments with care.

Congregational Care Teams

Help your community of faith, conscience, religious or spiritual practice become a place of care. **Community Care Teams equip congregations and other communities to care for their people and neighbors before, during, and after the election.** Together, communities identify the relationships, spaces, spiritual practices, and gifts they already have and build a plan for offering grounded, compassionate care when it is needed most.
